

Payment Management

Allow your affiliate partners to set up company and tax information to facilitate digital payments for their earned commissions. You can also enable partners to claim commissions manually or automatically for payments. Run performance analytics to understand.

Partner Financial Information

When payments are processed via ZINFI, affiliates can either keep their financial information with ZINFI in encrypted format or host the information on the banking server that ZINFI connects to.

Using this module, partners can enter financial details, including tax country-specific tax information that enables the system to calculate payout amounts and frequency.

Key Features Include:

- ✓ Encrypted financial information
- ✓ Easy management of payment details

Referral Commissions Dashboard

The Referral Commissions Dashboard provides users with a snapshot view of the commissions earned by individual users and partner accounts, showing referrals that have been successfully executed or approved.

The module also allows users to document and track every detail of the commission payment process over time.
